Examiner's Amendment

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the Issue Fee.

In the claim:

In claim 1, change $(= |N_s - N_p|)$ to $(\mathbf{k} = |N_s - N_p|)$

Allowable Subject Matter

Claims 1-6 are allowed.

Reason for Allowability

The following is an examiner's statement of reasons for allowance: in combination with other limitations recited in the claims, the primary reason for the allowance is the including the features of a stator with stator slot number N_s is 12; a rotor with rotor pole number N_p is 8, wherein the frame thickness $T(\theta)$ is determined by the Fourier series equation (1) as expressed in the claim, and the stress-relieving spaces are arranged in such a way that the sum "P" is determined by the Fourier series equation (2) as expressed in the claim.

Comparing to the prior-art of the record, none of the prior art references of the record, either stand-alone or in combination, has taught or suggest the above-mentioned features in combination with other limitations recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
